

0.1 Acknowledgments

The SHiP Collaboration wishes to thank the Castaldo company (Naples, Italy) for their contribution to the development studies of the decay vessel. The support from the National Research Foundation of Korea with grant numbers of 2018R1A2B2007757, 2018R1D1A3B07050649, 2018R1D1A1B07050701, 2017R1D1A1B03036042, 2017R1A6A3A01075752, 2016R1A2B4012302, and 2016R1A6A3A11930680 is acknowledged. The support from the FCT - Fundação para a Cincia e a Tecnologia of Portugal with grant number CERN/FIS-PAR/0030/2017 is acknowledged. The support from the Russian Foundation for Basic Research (RFBR), grant 17-02-00607, and the support from the TAEK of Turkey are acknowledged.

We thank M. Al-Turany, F. Uhlig, S. Neubert and A. Gheata their assistance with FairRoot. We acknowledge G. Eulisse and P.A. Munkes for help with Alibuild.

We thank M. Daniels for his contributions to the construction of the liquid-scintillator testbeam detectors.

The muon flux and charm cross section measurements this summer would not have been possible without a significant financial contribution from CERN. In addition, several member institutes made large financial and in-kind contributions to the construction of the target and the spectrometer sub detectors, as well as providing expert manpower for commissioning, data taking and analysis. This help is gratefully acknowledged.
